# Mission

Our mission is to build healthy, self-supporting communities through access, collaboration and care.

We provide access to the four essentials: Healthy Food Options, Affordable Healthcare Services, Education, and Financial Literacy. We are able to achieve this by collaborating with like-minded organizations to remove barriers for vulnerable population to provide care for ALL in the Hampton Roads region.

# Our Story

There was a man who once lived in extreme poverty. His family lived in a one-room home that was no larger than a shed. The only way that he was able to escape this vicious cycle of poverty was through the support of his family, friends and even strangers who cared... a community. This was a community that gave his family access to food, books for education, and an open door to the world that existed outside the limitations of his condition.

If not for a community of support, the man never would have made it out of poverty. This is not a fictional story or a fairy tale. This is the story of Courtney McBath, the founder of **Revive Community of Virginia.**

# Program History

*“Home is where the Homies are”*

Inspired by the story of our Founder Dr. B Courtney McBath, Summer Homies was created to remove barriers for our most vulnerable community members. Our goal was to expand access to critical resources for homies to enhance the overall quality of life of individuals in Hampton Roads.

# Program Vision

The vision to make a positive impact on the lives of individuals in need, offering support, care, and resources to promote the overall well-being of our most vulnerable community members.
