PROGRAM OVERVIEW

MISSION

Our mission is to build bridges and break barriers.

VISION

Our vision is to build healthy, self-supporting communities through access, collaboration and care. We provide access to the four essentials: Healthy Food Options, Affordable Healthcare Services, Education, and Financial Literacy. We are able to achieve this by collaborating with like-minded organizations to remove barriers for vulnerable population to provide care for ALL in the Hampton Roads region.

OUR STORY

**COURTNEY
MCBATH**

Founder

There was a man who once lived in extreme poverty. His family lived in a one-room home that was no larger than a shed. The only way that he was able to escape this vicious cycle of poverty was through the support of his family, friends and even strangers who cared... a community. This was a community that gave his family access to food, books for education, and an open door to the world that existed outside the limitations of his condition.

If not for a community of support, the man never would have made it out of poverty. This is not a fictional story or a fairy tale. This is the story of Courtney McBath, the founder of Revive Community of Virginia. f not for a community of support, the man never would have made it out of poverty. This is not a fictional story or a fairy tale. This is the story of Courtney McBath, the founder of Revive Community of Virginia.

PROGRAM HISTORY

“Home is where the Homies are.”

Inspired by the story of our Founder Dr. B Courtney McBath, Summer Homies was created to remove barriers for our most vulnerable community members. Our goal was to expand access to critical resources for homies to enhance the overall quality of life of individuals in Hampton Roads.

FROM THE DESK OF REVIVE COMMUNITY'S EXECUTIVE DIRECTOR - ALEX MCBATH

A Toast to the Good Times

Luxury shouldn't be reserved for those who can foot the bill. Joy shouldn't have a price tag. Wealth should have no weight on wellness. The difference between empathy and compassion, is ACTION. The difference between a charity and philanthropy, is SYSTEMIC CHANGE. Culture shifts. I'm committed to spreading luxury, joy and wellness around my city. I'm committed to caring on my city through action. Through intentional conversations and carefully curated fellowships with the homies . I'm committed to creating community-support systems that actually work.

People should feel loved by their city. People should feel protected by their city. People should feel supported by their city: People should feel like the homies.

All 2024, all 2025, All 2026, all 2027 and forever.

Long live the movement..... Long live COMMUNITY.

🚗🌟 what a ride....

1 mission..... the homies.

Next year, we double up on everything.

DEMOGRAPHIC BREAKDOWN

“Homie” Pronounced (“Hō-Mē”):

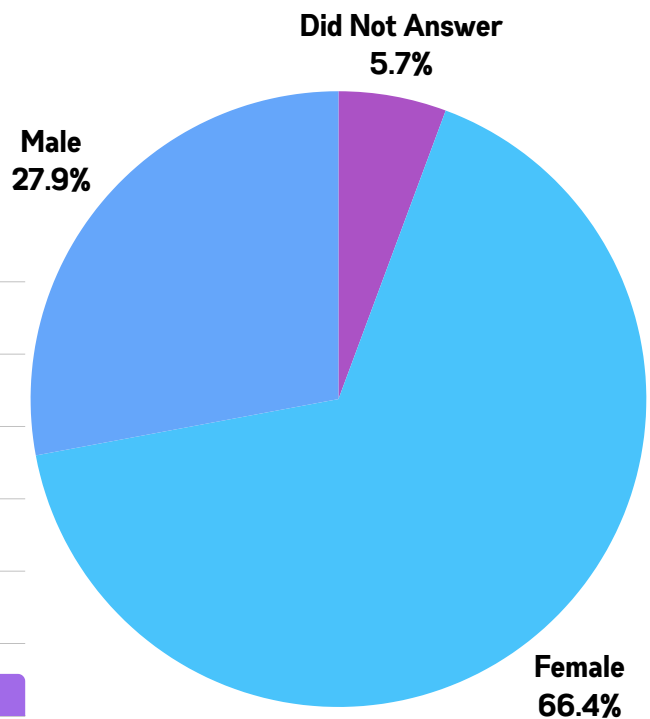

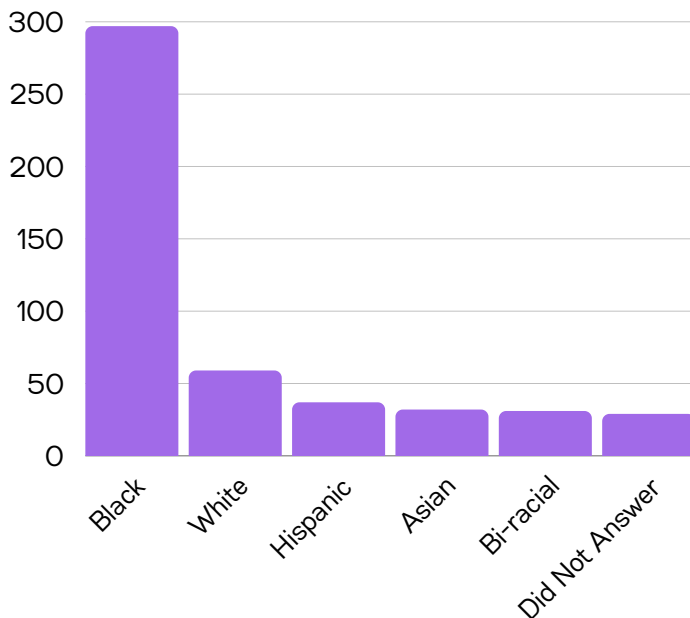

“Homie” is a term used to describe an individual who is actively engaged in a network or community where “life essential” resources and services are exchanged. Life essential resources, for us, are those resources which not only improve a person's quality of life, but make life enjoyable! The term homie can refer to someone offering this resource, seeking this resource, or sponsoring resources so as to further the fight to revive community. Whether you are the provider of a valuable resource, the seeker of a much needed service, or the recipient of aid, remember this: we are all the homies. A homie cares. A homie collaborates. A homie provides access. Home is where our Homies are.

IDENTIFIED BARRIERS

According to our target population the identified barriers create service deficits that act as “roadblocks” in their ability to access critical resources.

Our goal is to remove any barrier acting as a roadblock in their ability to access critical resources.

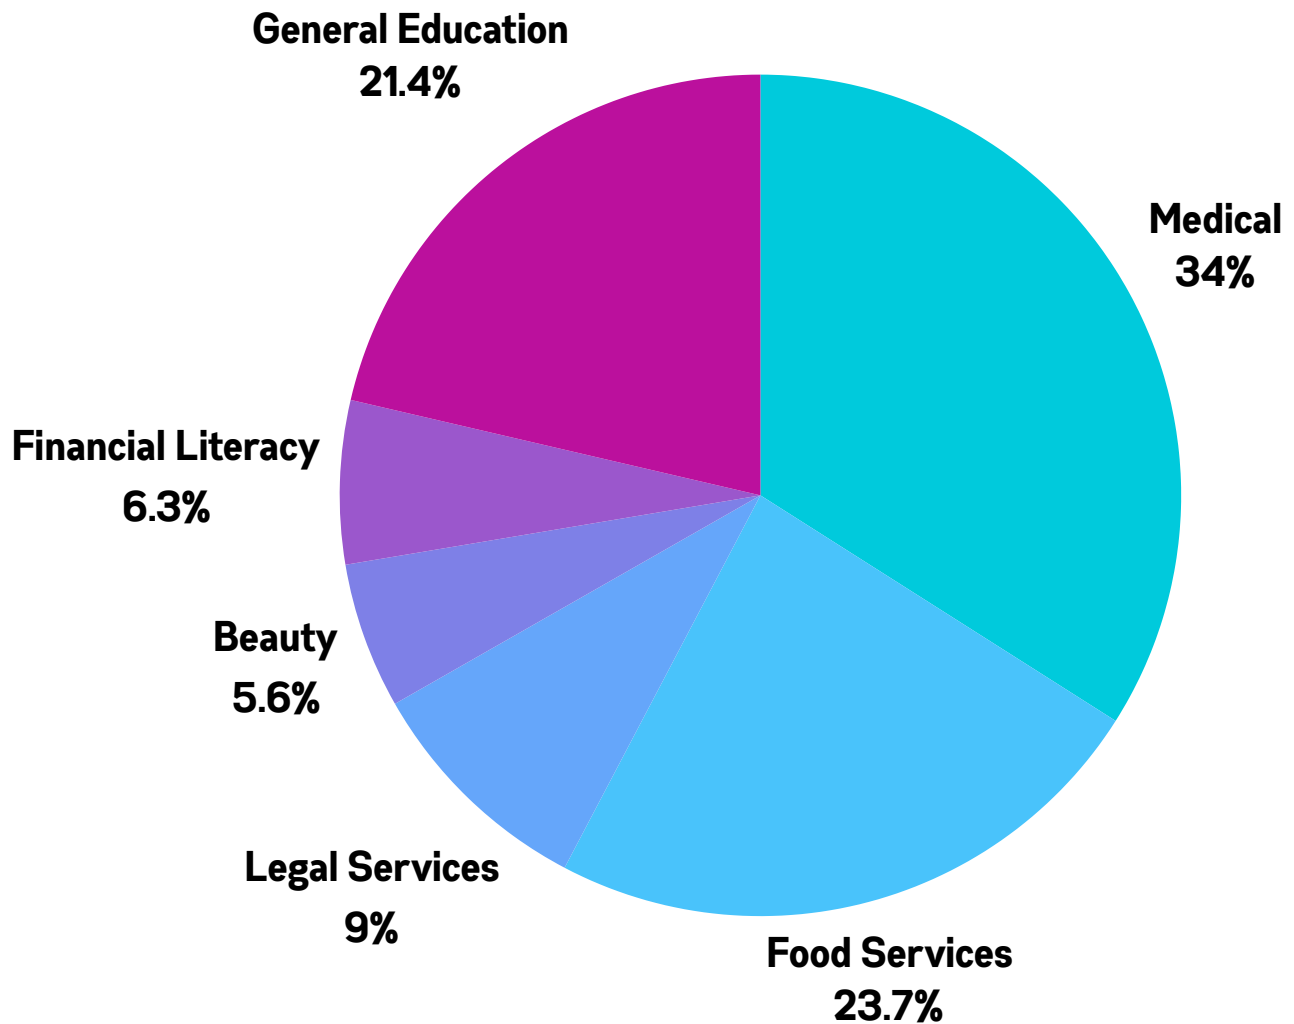

FREEDOM TO MOVE

The theme for our 2024 Summer Homies Festival was Freedom to Move. In 2024 we wanted to remove one of the BIGGEST barriers, transportation, by donating 2 vehicles to 2 families. Without a car, simple tasks like grocery shopping or attending parent-teacher meetings can become daunting challenges. A donated car can restore a sense of independence and dignity, allowing parents to fulfill their responsibilities and pursue opportunities that were previously out of reach.

Donating a car can also break the cycle of poverty by enabling parents to secure and maintain steady employment. This financial stability can have a ripple effect on the entire family, providing stability and improving overall well-being.

Moreover, a donated car represents more than just a mode of transportation—it symbolizes a community “of homies” coming together to support another “homie” in their time of need.

WE DID IT AGAIN!

Anita

Hey Homies!

I am thrilled to introduce myself as the newest member of the Revive Community of Virginia team! Last year, I had the pleasure of participating in the Summer Homies event as a Resource Provider, and I was blown away by the energy and impact of this amazing event. However, nothing could have prepared me for the incredible behind-the-scenes work that goes into making such a successful collaboration happen.

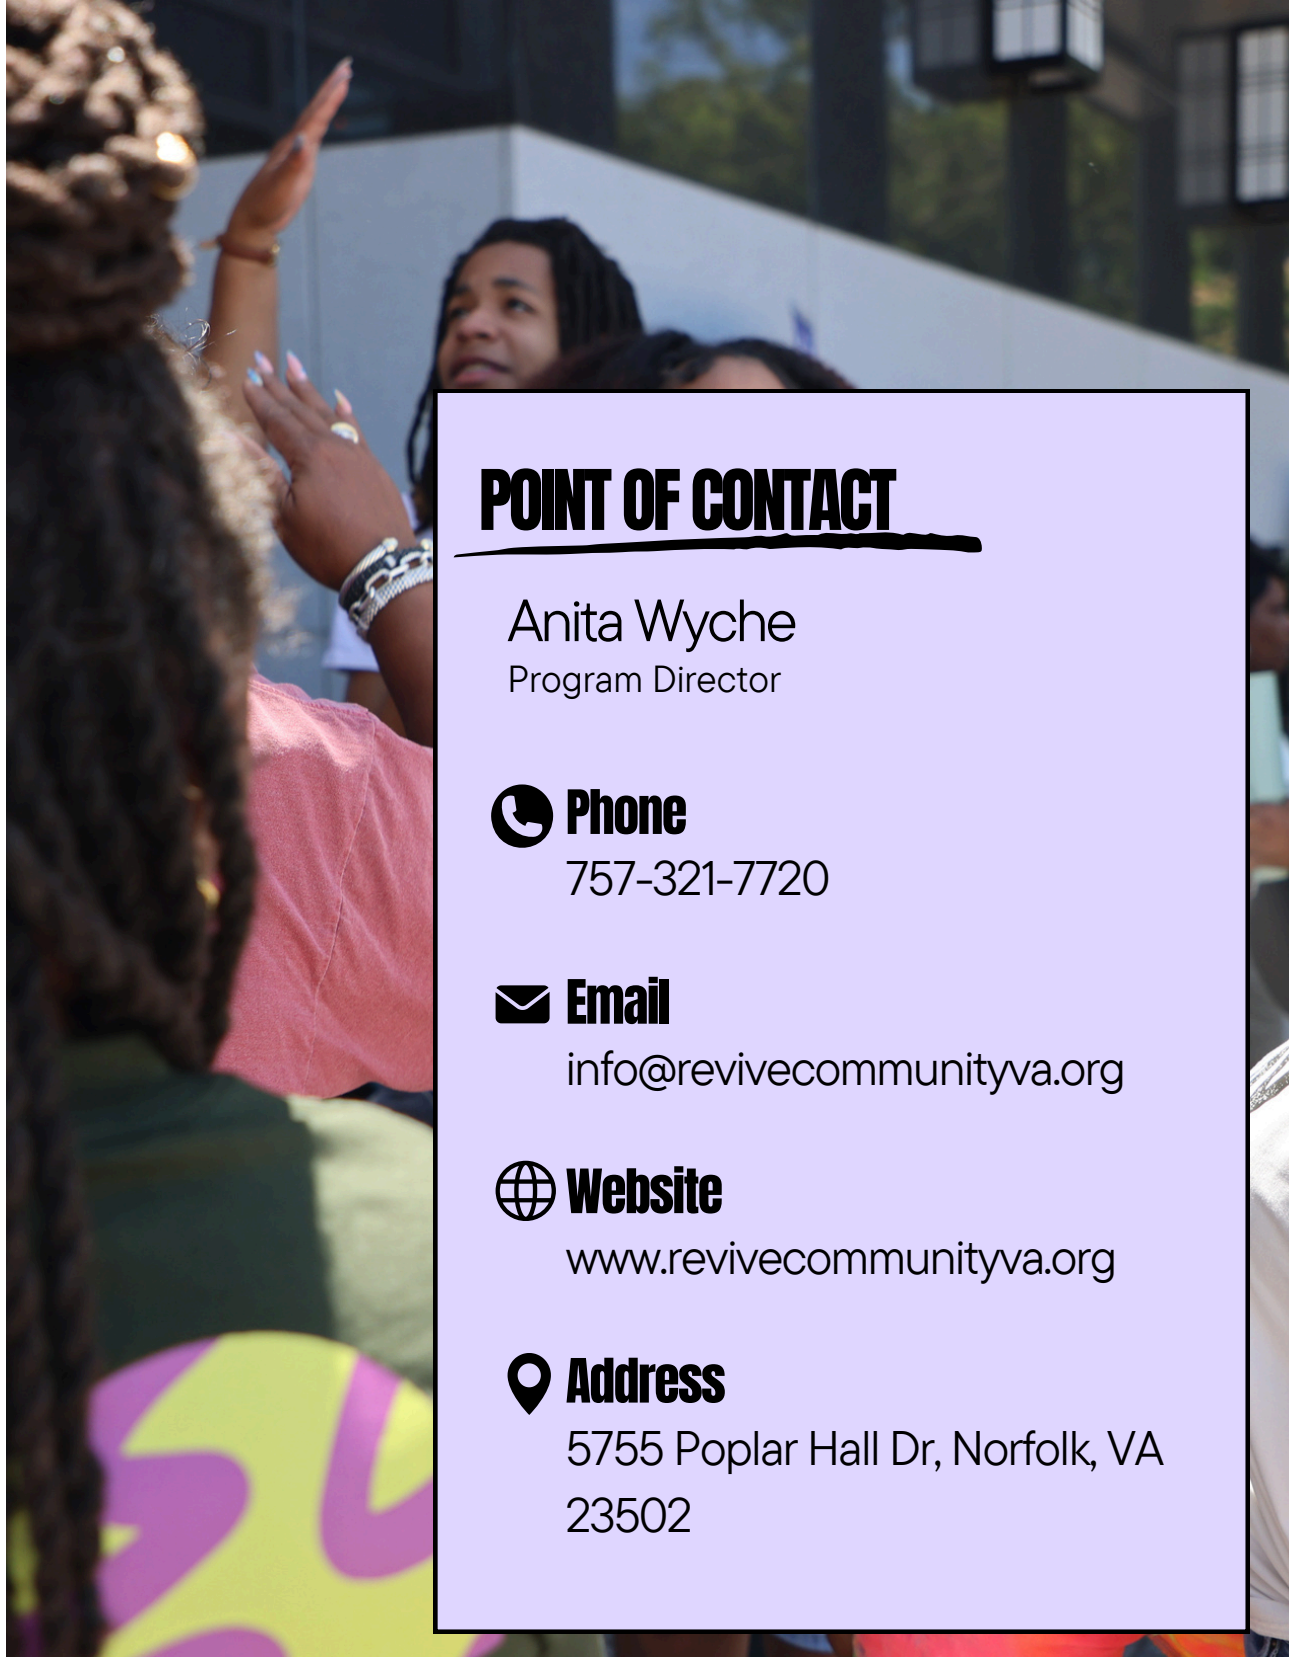

With the support and dedication of all our homies, we have once again achieved our mission of building healthy, self-supporting communities through access, collaboration, and care. Together, we have made a real difference, and I couldn't be prouder to be part of this community.

Looking ahead to 2025, we're excited about even bigger and better things. We hope each of you will continue to ride with us on this journey. Remember, bring a friend and let's keep making a positive impact together!

With gratitude,
Anita Wyche
